

Minutes from Class April 19, 2004

- We have received the interface boards from the shop
- Communication
 - Still some problems with Wireless but Wired please continue working on the network as if everything is working fine
 - Wireless Communication: Please send out a daily report of what you have done for the day (mandated by Professor Gum)
- Manon and Professor Gum worked together and verified that we will need approximately 9 more boards from the shop besides the ones the shop already knows about
