

Minutes from Class February 2, 2004

- Given new version of System Requirements (Version 1.01)
 - Will be revised to include the word minimum for R003
- Reviewed ACME Universal Reconfigurable Robotic Chassis Specifications
- Started developing the major functional blocks of our system and began to discuss thoroughly
 - See sheet titled Functional Block Requirements for in depth review
 - Discussion about power supply came up and where we will get the power from – TBD at a later date
