

## Minutes from Class February 4, 2004

- Architectural Document due to Professor Gum by Thursday, February 12, 2004 at 10:30am
  - Document will be reviewed at lunch meeting with friend from Bell Labs
- Professor Gum stated that the robots should work via robot control for right now
  - He will be working on this for us next week
- Each Functional Block group discussed the appropriate states for their block
  - Class gave feedback to each group
  - Each group needs to have a preliminary document ready for class on Monday, February 9, 2004 so the class can review it again
    - The preliminary document should include a description as well as the inputs and outputs of each state
